EXPERIENCE

Cyntexa, Associate Software Developer

2021 (May) - Present

PROJECTS

Stripe Integration with Salesforce

- The business requirement was to create a Stripe Payment Gateway integration with salesforce allowing users to make credit card payments for their purchase.
- Created **LWC component** to enter card details and make payment via API callouts.

E - Learning Platform

- The business requirement was to create an E-Learning system, allowing users to access the courses along with the question bank.
- Created an **LWC component** with a view for users allowing them to access courses with their questions helping in managing the course listing and question bank easily.

Compliance Wizard

- The business requirement was to completely customize the Salesforce UI for its community portal.
- Worked on the dashboard module from scratch and created multiple **LWC Components** which included the use of **chart.js** and **SLDS library** to make the UI **responsive** as well.

Visa & Passport Providing Firm

- The client is a visa & passport providing firm based in Australia. The business requirement of the project was to **integrate Calendly with Salesforce** so that the customer can book an appointment through it.
- Also created a LWC component for appointment booking.
- Created a force.com site to host the booking appointment form.
- Created Web-To-Lead form to store the information of leads.

Loan Management

- The client wanted to keep a track of potential customers interested in taking loans and also manage the loan agents and their travel expenses. Created custom objects to store the loan information and details of agents. Automated the process with the help of **Process Builder** and **Approval Process** for travel request and travel expense.
- Automated emails for loan approval and employee emails for travel expense approval.

SKILLS

Salesforce Admin, Sales Cloud, Lightning Web Components (LWC), Apex, Triggers, API Integration, Javascript, HTML
